Forecast for Monday 20 Sep 2021

Weather: Clear skies overnight into Monday. Any mist and fog patches that form in the early hours should clear shortly after sunrise. A fine and dry day follows with long intervals of sunshine. Clear spells continuing into the early evening, though more cloud building through the night.

Chance of cloud free mountain/hill tops above 600m: 90% or better through the day.

Visibility: Poor in any early mist and fog patches. Excellent from then on with any cloud remaining above the summits and good views of surrounding hills.

Meteorologist's View

A lovely day for being out on the hills. Be aware that, although UV levels are at moderate levels, it is still important to protect exposed areas of skin if out in the sun for extended periods of time.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:

Forecast for Tuesday 21 Sep 2021

Weather: An increasingly cloudy start to Tuesday with some misty and foggy conditions on north western summits. This cloud will lift through the morning. Remaining dry from then on as the cloud begins to clear through the afternoon. These clear intervals continuing into the evening and night.

Maximum wind: Winds on the summits initially westerly 5mph, strengthening to 13mph by the evening.

Chance of cloud free mountain/hill tops above 600m: 50% during the morning, rising to 70% or better in the afternoon.

Visibility: Poor on the summits in any initial low cloud, most notably in the north west, with bases down to 400-500m. Improving through the morning as cloud lifts to above the summits, with good visibility of surrounding hills from the afternoon onward.

Temperature: **Valleys:** Plus 9, rising to plus 19.
At 600m: Plus 9 Celsius, rising to plus 12 Celsius.
Freezing level: Above the summits.
